can't see you on weekends, on holidays, on your birthday or his and he can't be called at home. Froggedaboutit.

THE MAMA'S FROG: He brings his mom on dates, her name is tattooed on his arm and his favorite movie is *Psycho*. He's dedicated to his favorite gal — but it's not you.

THE BULLY FROG: He yells at the waiter, screams at the valet and snaps at the hostess. Guess what — you're next!

THE SLIMY FROG: Uncouth and rude, his language is foul and he ogles other gals while he's out with you. Toss him back into the pond.

THE BULL FROG: He's worth millions, his friends are celebrities, his house is a mansion, his watch is a Rolex and his yacht is at the marina — so he says. Watch him jump when you learn the truth.

THE FREAK FROG: He ignores you at parties, talks behind your back, takes photos of you naked and posts them on the Internet. Dump this loser.
